Are you an educator, or someone interested in working with educators to understand and implement the core values, and criteria of the Malcolm Baldrige National Quality Award? Do you want to connect with people that are implementing Baldrige? Are you looking for answers to questions about how to address various aspects of the criteria?

To date there have been five education recipients to receive the highest recognition of being a Malcolm Baldrige National Quality Award recipient, and many more that have received recognition from their own state quality award program. We celebrate them all! And we celebrate those of you who are interested in using the criteria to improve, with no intention of applying for any award or recognition.

We invite you to join the Baldrige for Education Network by registering, and participating in this community of learners.
