Interactive lecture by Dr. J. Jay Marino (USA). A unique event!

Posted on Thursday, March 17th, 2016 - [General](#)

It was a very inspiring meeting for directors and internal supervisors on April 5 this year .. The interactive lecture by Jay Marino ` Continuous Improvement Through Teamwork, Collaboration and Shared Leadership! `.

"Beautiful, inspiring and convincing

The participants are enthusiastic. "Nice," "inspiring" and "convincing" they find Marino's presentation. Of that valuation Marino can also enjoy themselves. "I have a great day," he says laughing. "I enjoy the enthusiasm of the participants. I also feel that I make a difference. "Is that why he comes back again? But Jay Marino has a "higher purpose." "I want to have a greater impact on children; an impact that transcends my own school district. I would have meaning to the Netherlands by helping schools realize their potential. Which in turn affects the children and what matters to me. "

The first positive feedback from participants in their own school went to work immediately with the tips of Marino, have been coming to us in!
