ianen Wednesday took the annual conference of the schools foundation Fluenta place.

Fluenta has schools in Vianen, Houten, Nieuwegein, IJsselstein and Leersum. The teachers from eighteen different schools, over 450 teachers in total, gathered in the Stadshof to follow a master of American speaker, Jay Marino.

He talked about the concept of "continuous improvement" that closely matched the theme "Ownership of children '. In the context of this topic students from different schools were actively involved. They took the opening of the day, were hosted in their own school in Vianen (The Ark, The Rank, Bridge) and organized together with Arie de Bruin (author of several books and comedian), a spectacular musical closing.

Judy Cook
